

Notice of accreditation actions by the AVMA Council on Education June 2020

The AVMA Council on Education (AVMA COE®) is recognized by the United State Department of Education as the accrediting agency for colleges and schools of veterinary medicine in the US. In keeping with the regulations of the United States Department of Education, the following are the accreditation actions taken by the AVMA COE.

The AVMA COE® took the following actions during its June 8, 2020 meeting.

Accredited is a classification granted to a college that has no deficiencies in any of the Standards and is granted for a period of up to seven years. A college with one or more minor deficiencies that have minimal or no effect on student learning or safety, that can be reasonably be addressed in one year, are Accredited with minor deficiencies. Colleges with a status of Accredited submit annual interim reports to monitor continued compliance with the Standards of Accreditation. Colleges with a status of Accredited with minor deficiencies submit reports twice a year.

Based on a review of annual interim reports submitted, the AVMA COE® granted accreditation status as follows:

- **University of Calgary Faculty of Veterinary Medicine** – [Accredited](#) with minor deficiency (Standard 3, Physical Facilities & Equipment)
- **University of Florida College of Veterinary Medicine** - Accredited
- **Lincoln Memorial University College of Veterinary Medicine** - Accredited
- **Tuskegee University School of Veterinary Medicine** - Accredited

If a college granted Reasonable Assurance is making adequate progress in complying with the Standards, Provisional Accreditation may be granted to that college on the date that letters of acceptance (admission) are mailed to members of the initial class. When Provisional Accreditation is granted, interim reports are required at six-month intervals to monitor the program's progress in complying with the Standards. In particular, changes in business or educational plans must be addressed in detail. Provisional Accreditation status may remain in effect no more than five years if the program complies with the necessary requirements. A program with Provisional Accreditation for five years or that does not provide continuing evidence that its program will comply with the Standards and its plan may be placed on Terminal Accreditation.

Granted Provisional Accreditation based on continued compliance with the College's plan and the College's issuance of letters of acceptance:

- **University of Arizona College of Veterinary Medicine**
